

**PROPOSED ORDER OF THE  
DEPARTMENT OF HEALTH AND FAMILY SERVICES  
REPEALING AND CREATING RULES**

To repeal chapter HSS 56 and to create chapter HFS 56, relating to foster home care for children.

Analysis Prepared by the Department of Health and Family Services

This order updates the Department's rules for licensing foster homes for children. Foster parents operating a foster home provide residential care and maintenance for one to 4 children placed in the home, usually under a court order although sometimes by voluntary agreement under s. 48.63, Stats. At the end of 1998, there were approximately 5,200 licensed foster homes in the state, and 8,200 foster children living in those homes. Foster homes are licensed under these rules by county social service and human service departments and by private child-placing agencies licensed by the Department under ch. HFS 54.

The principal changes being made in this updating of rules for licensing foster homes for children are the following:

(1) **Chapter number.** Chapter HSS 56 is renumbered ch. HFS 56 because the Department's name was changed effective July 1, 1996, from Health and Social Services to Health and Family Services.

(2) **Clarifications.** Since September 1990, when the rules were last updated, the Department has compiled a list of the most frequently asked questions that licensing agencies, foster parents and other interested parties have about the rules. In an effort to reduce the need for interpretation, many clarifications are being made in rule language, including adding supplemental information, so that the meaning of requirements is not in question.

(3) **Department Exceptions Panel.** The current rules permit a licensing agency, on written request of a license applicant or licensee, to grant an exception for that person to any nonstatutory requirement in the rules other than several specified requirements. That is continued in the revised rules. But the revised rules establish a three-or-more member Department Exceptions Panel that may grant an exception to any nonstatutory rule requirement for which a licensing agency cannot grant an exception, provided that the licensing agency agrees.

(4) **Information about rate setting and foster parent insurance.** In response to complaints from several foster parents that they have never been told how foster care payment rates are set and that they can request a review of the rate they are being paid and that they have not been informed about the foster parent insurance program, the revised rules add a requirement that a licensing agency at the time of license application or reapplication is to ask the applicant to provide a signed

statement indicating that the license applicant has been informed about the foster care rate structure, including clothing allowances, and the foster parent insurance program.

(5) **Number of children in a foster home.** The rules have been revised to comply with a recent statutory change allowing up to 6 foster children in a foster home if necessary to enable siblings to remain together.

(6) **Modification of license.** The current rules appear to limit when and by whom a request for license modification may be made. The revised rules expressly provide that a license may be modified at any time during the duration of the license and either at the request of the licensee or by direction of the licensing agency.

(7) **Time period for licensing decision.** Currently the rules state that the licensing agency must make its decision about granting a license within 60 days after receiving a completed application. In the revised rules a licensing agency is allowed one 30-day extension if needed to gather additional information necessary for making its decision. Also in the revised rules, an exception to the 60-day limit is made when the application is for a pre-adoptive foster care placement. In that case the licensing agency has until 6 months after receiving a completed application to act on that application, which is consistent with the Department's policy not to issue a license until a potential adoptive child is located for the foster/adoptive parent.

(8) **Discrimination prohibited.** The revised rules add that a licensing agency in issuing foster home and family-operated group home licenses may not discriminate against license applicants on the basis of age, sex, race, color, creed, sexual orientation, national origin or handicap.

(9) **Notification of licensing agency about other licenses.** Many foster parents are currently licensed or certified to provide care to children or adults under other licensure or certification programs, such as day care. Nothing in the current rules requires foster parents to notify the foster care licensing agency about these additional licenses and certifications. The revised rules require that notification.

(10) **Foster parent qualifications.** The current rules pay a great deal of attention to the physical characteristics of the foster home but do not give much attention to qualifications of foster parents apart from the duties that they are assigned. At the request of the licensing agencies and with approval of the state foster parent association, the revised rules have a new paragraph that describes what personal characteristics foster parents should have. The new language is added to provide more guidance to licensing agencies on what characterizes successful foster parents; to provide information to prospective foster parents about where training may be needed; and to provide more qualitative reasons for not granting a license.

(11) **Licensing agency approval for acceptance of children.** A provision is added to the revised rules that a licensed foster parent must have the approval of the licensing agency before

accepting children for placement. That provision was in the rules prior to 1990 but was inadvertently omitted when the rules were revised that year. This enables the licensing agency to exercise some control over how many and what types of children reside in a foster home.

(12) **Mandatory reporting of abuse or neglect of foster children.** Foster parents are not currently mandated under s. 48.981(2), Stats., to report child abuse or neglect. The revised rules require foster parents to notify the licensing or supervising agency, the county social services or human services department or a local law enforcement agency if they believe that a foster child has been abused or neglected, or has been threatened with abuse or neglect and the abuse or neglect will likely occur.

(13) **Definition of physician.** The current rules require foster parents to provide documentation from a physician that they are in good health. In response to numerous inquiries from licensing agencies, the revised rules make clear that what is meant by a physician is an individual possessing the degree of doctor of medicine or doctor of osteopathy or an equivalent degree as determined by the medical examining board, and holding a license granted by the board, but not a physician assistant, a chiropractor or any other health care provider.

(14) **License prohibition if prohibited by statute.** The current rules provide that no license be granted to an applicant who has been convicted of an offense related to taking care of children. In the revised rules there is language that would also deny a license to an applicant who is otherwise prohibited by the new caregiver background check law and implementing administrative rules from being licensed to provide foster care.

(15) **Additional requirements for bathrooms and bedrooms.** The revised rules include several new requirements related to bath and toilet facilities and sleeping arrangements. The new requirements are taken from other licensing rules and from building codes. There have been many questions asked over the years about these subsections in ch. HSS 56 and the answers given have not always been consistent. The changes are meant to answer the most common questions and reduce the need for interpretation.

(16) **Hazardous machinery and equipment.** The current rules impose prohibitions, restrictions and conditions on foster children's use of "hazardous machines." In the revised rules the term is changed to "hazardous machinery and equipment," and the term "power-driven" is deleted from the definition to make clear that machinery and other equipment need not be motorized to be considered hazardous.

(17) **Searches of foster children's belongings.** The current rules are silent about when and under what conditions and following what procedures a foster parent may search a foster child's room, jacket, backpack, etc. Language has been added in the revised rules relating to searches of the private belongings of foster children. This is to ensure that foster children are provided with a minimal and reasonable amount of privacy. Because of several incidents of foster parents destroying clothing, music

and other belongings of foster children, the revised rules also include provisions that guarantee that personal possessions cannot permanently be taken away from a child without the permission of the child's social worker. Under no circumstances may these personal belongings be destroyed. If it is determined that possession of some things are not in a child's best interests, the materials are to be given to the child's parents or retained by the supervising agency until the child leaves foster care.

(18) **Physical confinement.** The current rules prohibit the confinement of foster children in a locked room or closet for punishment. Because of abuses in recent years, this language has been amplified to prohibit using mechanical restraints on a foster child or locking or confining the child in any enclosure, room, closet or other part of the house or premises for any reason whatever.

(19) **Health care for foster children.** The revised rules make the Medical Assistance (Medicaid) HealthCheck program the standard for meeting the medical and dental care needs of foster children.

(20) **Tobacco products.** Responding to statutory changes in recent years relating to possession and use of tobacco products by minors, language has been added in the revised rules to require foster parents to make reasonable efforts to ensure that foster children do not smoke or otherwise use tobacco.

(21) **School attendance.** Rule language has been added which requires foster parents to make efforts to ensure that the foster child attends school or participates in another educational program as required by law and the child's permanency plan. In addition foster parents are directed to make an effort to participate as appropriate in school activities involving the foster child.

The Department's authority to repeal and create these rules is found in ss. 48.62(4), 48.64(4), 48.67 and 48.675(2), Stats. The rules interpret ss. 48.48(9), 48.57(1)(i), 48.61(7), 48.62, 48.625, 48.627, 48.64(4)(a), 48.66, 48.675, 48.68, 48.685, 48.70(1), 48.715, 48.72 and 48.75, Stats., as amended by 1999 Wisconsin Act 9.

**HFS 56.02 Applicability.** (1) TO WHOM THE RULES APPLY. This chapter applies to all persons proposing to provide or who are providing foster care for children in a foster home or treatment foster home, and to the department, county agencies under s. 46.215, 46.22 or 46.23, Stats., and licensed child-placing agencies.

(2) EXCEPTION TO A REQUIREMENT. (a) *Licensing agency authority.* 1. A licensing agency may grant an exception to any requirement in this chapter if the licensing agency determines that the exception will not jeopardize the health, safety or welfare of the foster children, except that the licensing agency may not grant an exception to any of the

following requirements: s. HFS 56.04 (1), (2), (4)(a)1., 2., 3., 4., 5., 8., or 9. or (b)2., (6), (7) or (8); s. 2. An applicant or licensee wanting an exception to a nonstatutory requirement in this chapter that the licensing agency has authority to grant shall submit a written request to the licensing agency stating the specific provision of this chapter for which an exception is requested, the justification for the requested exception and an explanation of any alternative provision planned to meet the intent of the requirement.

3. Any exception granted under subd. 2. or par. (b) shall be specifically cited on the license and shall be in effect only as long as the conditions under which the exception was granted remain but no longer than 2 years from the date on which the exception is granted or the date the license terminates, whichever occurs first, by which time the licensing agency shall determine if there is continued justification for the exception. In addition, the licensing agency may impose conditions to be met within a specified period of time by the licensee as an alternative to compliance with the requirement for which an exception has been granted.

(b) *Department exceptions panel.* 1. An applicant or licensee wanting an exception to a nonstatutory requirement in this chapter that the licensing agency may not grant may ask the department exceptions panel to grant the exception, with the approval of the licensing agency. 5. If the licensing agency approves the request or some alternative to the request, the licensing agency shall submit the completed request form to the department within 10 working days after the agency's receipt of the request form from the applicant or licensee. The licensing agency does not need to submit to the department any request that it does not support.

6. The department exceptions panel shall, in writing, indicate its approval or disapproval of the request within 10 working days after the department receives the request form from the licensing agency.

7. a. The department exceptions panel shall consist of at least 3 persons who collectively are knowledgeable about the foster care program, licensing practices and any special needs of children who may be served by the applicant for an exception.

(b) Application for a foster home license shall be made on a form provided by the licensing agency.

(2) LICENSE PROHIBITION. No licensing agency may issue a foster home license to one of its own employees. Foster parents serving an agency only in the foster parent role and volunteers utilized by an agency are not considered employees for purposes of this prohibition.

(3) REAPPLICATION FOLLOWING DENIAL OR REVOCATION. No applicant or former licensee who, for a substantive reason, such as inappropriate discipline practices, inadequate mental health functioning or current abuse of alcohol or drugs, was denied a license or whose license was revoked may reapply for a license to any licensing agency within a period of 2 years following the effective date of license denial or revocation, unless both of the following conditions are met:

d. Within 10 days after a household member leaves.

e. At least 30 days before someone enters the household when this is known that far in advance or otherwise as soon as possible before that person enters the household.

(5) ACTION BY THE LICENSING AGENCY. (a) Except as provided in par. (b) or (c), within 60 days after receiving a completed application for a foster home license, for renewal of the foster home license or for a license modification, the licensing agency shall

approve the application and issue the license, deny the application or approve the modification. Any delay that is the result of an act or omission on the part of the applicant shall not be considered in the sixty-day time limit. If the application for a license, relicensure or license modification is denied, the licensing agency shall give the applicant reasons in writing for the denial and shall provide information on how an appeal may be requested under s. HFS 56.10.

(b) A licensing agency shall be allowed one 30-day extension of the requirement under par. (a) if the extension is needed to allow the agency to collect information necessary to make an informed decision, such as to obtain a criminal records check or responses from references. The agency shall notify the applicant or licensee if an extension is necessary.

(c) If the foster home license application is for a pre-adoptive placement, the licensing agency shall either approve the application and issue the license or deny the application within 6 calendar months after receipt of the completed application. If the application for a license is denied, the licensing agency shall give the applicant reasons, in writing, for the denial and shall provide information on how an appeal may be requested under s. HFS 56.10.

(6) **DISCRIMINATION.** A licensing agency may not discriminate against an applicant for a foster home license or a foster parent applying for renewal of a foster home license on the basis of age, sex, race, color, creed, sexual orientation, national origin or handicap.

(7) **EFFECTIVE PERIOD OF A LICENSE.** A foster home license shall be effective for a period not to exceed 2 years and may be renewed upon successful completion of relicensing requirements.

(8) **NOTIFICATION OF APPLICATION FOR OR ISSUANCE OF ADDITIONAL LICENSES.** A licensee who applies to any licensing authority for or is issued any other license in addition to the foster home license shall notify the agency that issued the foster home license.

No licensee may hold any other license to provide foster care, group foster care under ch. HFS 57 or treatment foster care for children.

**HFS 56.05 Licensee qualifications.** (1) **PERSONAL REQUIREMENTS AND BACKGROUND.** (a) *General.* 1. A person licensed to operate a foster home shall be a responsible, mature individual who is fit and qualified, who does not abuse alcohol or drugs or have a history of a statutory conviction or administrative rule violation that substantially relates to caring for children or operating a foster home, as described in ch. HFS 12, and who exercises sound judgment and displays the capacity to successfully nurture foster children.

2. The applicant or licensee shall give truthful and sufficient information to enable the licensing agency to verify whether or not he or she meets the requirements under subd. 1. Giving false information or withholding relevant information shall constitute grounds for denial or revocation of the license.

3. In determining whether a person is fit and qualified, the licensing agency shall consider the person's qualifications under this section and any history of civil or criminal

violation of statutes, regulations or ordinances of the United States, this state, any other state, any local government or other U.S. jurisdiction substantially related to the care of children.

3. If, at any time, the licensing agency suspects or has reason to believe that the physical or mental health of an applicant, licensee or other household member may pose a threat to the health, safety or welfare of children in care, the licensing agency may require an alcohol or other drug abuse assessment or a physical health or mental health evaluation of the person as a condition for issuing or continuing the license.

In the event that a foster parent is sued, the foster parent may be liable for any judgment and attorney's fees. As such, a waiver of the insurance requirement should be made only in rare circumstances.

(d) Within 30 days after receipt of a request that is accompanied by the documentation required under par. (c), the licensing agency shall either waive the requirement or deny the request for a waiver, and shall notify the applicant or foster parent in writing of its decision and the reasons for the decision.

(b) The placing agency shall assess each foster child within 30 days after the child's placement in a foster home and not less often than at 6 month intervals thereafter while the child remains in foster care to determine if the child has special needs which require a supplemental payment. The assessment of the foster child's special emotional, behavioral or physical and personal needs shall be made by comparing the child's characteristics to the schedule of difficulty-of-care levels described in sub. They are frequently truant from school (1 to 2 times a month for more than one day), resulting in delayed academic progress including performance below their ability which may lead to class failure, possible suspension and frequent parent contact with the school. They may exhibit sexual activity harmful to themselves and disruptive to their family and community relationships. They may occasionally have been involved in non-violent crimes such as burglary, which caused conflict with authority. They may exhibit frequent aggressive behavior such as biting, scratching or throwing objects at another person. They have seizures or motor dysfunctions which are controlled by medication. Therapy for gross or fine motor skills can be done with supervision for children to achieve normal conditions. These children may require special diet preparation.

3. 'Level C, moderate.' The child exhibits one or more characteristics which include or correspond in extent or degree with the following: Children at this level need help with dressing, bathing and general toilet needs, including maintenance procedures such as diapering and applying catheters, and require the help of a person or a device to walk or get around. They need assistance to care for and maintain physical assisting devices. The children have feeding problems such as excessive intake, extreme messiness or extremely slow eating requiring help or supervision or both. There may be a need for tube or gavage feeding. These children require special care to prevent or remedy skin conditions such as decubiti (bedsores) and severe eczema.
